

## Capability statement

### Company overview

BWC Civil and Earthmoving is a Western Australian owned and operated business providing civil and earthmoving services.

The business was established by Brad Walton in early 2000, and commenced operations servicing the building and construction industry. The business quickly expanded into the civil contracting sector undertaking numerous road stabilisation and construction contracts, as well as subdivisional earthworks, limestone retaining wall and stormwater drainage stages on developments and subdivisions throughout Western Australia.

### Core services and competencies

BWC Civil is committed to providing high quality service within specified timeframes. We pride ourselves on creating mutually beneficial relationships with our clients and the value of ongoing service and loyalty.

Our core services consist of:

- Site preparation and bulk earthworks
- Road construction
- Commercial carpark construction
- Limestone retaining wall construction
- Drainage

### Equipment available

We operate with a full range of earthmoving equipment and services which enables us to be versatile in working with clients on projects of various scopes and sizes.

Our current fleet capacity extends to:

Site preparation and bulk earthworks

- Front end loaders
- Excavators – 5 tonne to 20 tonne
- Semi trucks and tippers
- Positraks
- Bobcats
- Plate compactors & vertical rammers

Road construction & carparks

- Grader (CAT 120H)
- Positrak with laser grader attachment
- Water trucks
- Rollers – 4 tonne to 20 tonne
- Semi trucks and tippers
- Low loaders for mobilisation of heavy equipment

### Key personnel and staff

Brad commenced his involvement in earthmoving and civil construction working for Triad and Ertech. Now, with more than 20 years experience in the industry Brad is able to work with clients to provide tailored and timely services.

We also have a reliable and experienced team of employees who are hardworking and strive for excellence in their works.

### Clients

Our clients consist of a number of well known and respected WA companies including:
